Water Resources Manager,
GeoSyntec Consultants, Inc.

**PREREGISTRATION IS
REQUIRED**

BETTER SITE DEVELOPMENT WORKSHOP

This workshop will provide landscape architects, designers, and city planners the tools to develop sites with a sustainable design. Presenters will give attendees examples and resources focused on redeveloping NYC buildings and landscape to improve environmental quality, reduce the burdens on current city infrastructure, enhance site aesthetics, and protect surrounding natural resources.

Agenda (subject to change)

8:00 - 8:30 a.m. Registration and Refreshments

8:30 - 9:20 a.m. NYC High Performance Guidelines
Thomas Paino & Kerry Carnahan will discuss the NYC Department of Design & Construction's high performance building and infrastructure programs.

9:20 - 10:10 a.m. Low Impact Development
Steve Roy will discuss bio-retention and vegetated stormwater controls, projects, techniques, and materials used in urban settings.

10:10 - 10:30 a.m. Coffee Break

10:30 - 11:20 p.m. Green Roofs & Stormwater Retention
Paul Mankiewicz will discuss green roofs, lightweight soils, and stormwater retention projects in NYC.

11:20 - 12:10 p.m. Water Conservation, Retrofits & Reuse
Franco Montalto will discuss water treatment/reuse in retrofits and new construction, and the Gowanus Canal modeling project.

12:10—12:30 p.m. Closing Comments

Register quickly - space is limited!
